

CLIMATE FARM DEMO

Do you want to make your farm fit for climate change?

Are you concerned about the impact of Climate Change on your farming business?

Are you willing to learn how to implement and demonstrate climate-smart practices on your farm?

Are you interested in benefiting from innovation know-how and experiences from science and practice from all over Europe?

Do you get enthusiastic about exchanging experiences and learning from other farmers?

Do you want free access to expert knowledge from all over Europe?

Then this project is for you!

www.climatefarmdemo.eu

This project has received funding from the Horizon Europe research and innovation programme under Grant Agreement No 101060212.

Climate Farm Demo enables you to climate-proof your farm

It offers the opportunity:

- To receive close support for free from a dedicated advisor for six years on climate mitigation and adaptation.
- To improve technical aspects of your farm management, like herd management, crops, manure management, etc.
- To improve your farm efficiency, reduce operational costs, and reduce climate impact
- To be informed about funding opportunities and carbon-rewarding mechanisms
- To access applicable methods and tools for climate-smart practices
- To receive the latest research results and practical solutions produced in your region
- To participate in a six-year peer-to-peer knowledge exchange programme through cross-visits abroad and events in your region

Demo Farmers are the heart of the Climate Farm Demo network

You will:

- Demonstrate the feasibility of a climate adaptation and mitigation plan for your farm together with your Climate Farm Demo advisor
- Testify on the link between farm performance and climate resilience
- Record and provide data on your farm to the Climate Farm Demo project
- Share your experiences with the implementation of climate adaptation and mitigation measures with your peers
- Learn from other Demo Farmers in farmer discussion groups
- Host demonstration events for the wider farming public on your farm.

Seize this opportunity to benefit from free expert knowledge and improve your farm management by joining the Climate Farm Demo network!

Join us!
