

**Networking European Farms to Enhance cRoss
ferTilisation and Innovation uptake Through demonstratIon**

NEFERTITI network is aiming at:

Connecting people

Strengthen multi-actor networking, peer-to-peer learning and innovation uptake across Europe.

Knowledge exchange

A web based platform / knowledge reservoir unlocks the experiences, actors, demonstration details and the related technical content for wide spread sharing through a set of media.

Cross fertilization

A monitoring and learning program supports the systematic extraction of lessons learnt and demonstration best practices, to be shared with wide audiences in the EU AKIS, including policy makers.

Objectives	➔ Boost innovation
	➔ Improve peer to peer learning
	➔ Exchange of knowledge
	➔ Network connectivity
A unique H2020 project	➔ 10 Networks on specific themes
	➔ 45 Regional / National hubs
	➔ Demonstration farms & activities
	➔ Multi-actor setting

NEFERTITI Networks

Grassland & carbon sequestration

Data driven decisions for dairy farmers

Robust organic livestock systems

Optimal soil quality in arable crops

Arable crop sensing & variable rate applications

Increasing productivity & quality in organic arable crops

Improved nutrient
use efficiency in
horticulture

Water use efficiency in horticulture

Reducing pesticides use in the production of grapes, fruits & vegetables

Farm attractiveness

Some facts about NEFERTITI

4

**Years starting
January 2018**

7M€

**Budget funded
by H2020**

32

Partners from 16 countries

45

Regional / National hubs of Demo farms on 10 themes
